Entry Classes

Class I - Annuals and Biennials
Class II - Perennials
Class III - Foliage
Class IV - Flowering Branches - to include fruited, coned or berried branches (not to exceed 28" overall length)
Class V - Bulbs - to include Lilies, Callas and Dahlias
Class VI- Miscellaneous - to include vines, ornamental grasses and other entries not listed in other classes.

Rules for the Flower Show

- All classes are open to ANY amateur gardener.
- All specimens must be grown by the exhibitor.
- There is a limit of 10 entries per person.
- More than one entry per class is allowed provided each is a different cultivar, type and color.
- See through containers (can be clear or colored but must allow view of the stem) are to be furnished by the entrant.
- Only one stem per container. (Calla Lily may have 2 stems; 1 flower and 1 leaf)
- All specimens (except Pansies and Calla Lilies) must have at least one leaf. No leaves or roots in water.
- No oiling, spray or artificial coloring permitted.
- All specimens must be labeled with a common name and correct botanical name if possible on the entry form.
- The committee will subdivide classes by cultivar, type and color.
- Foil props may be used if necessary.
- Wiring allowed for vines only.

Day of Show Schedule

8:30-10:00 am Entries received at Lakeville Arts Center registration table.
10:00-11:00 am Judging of entries. Ribbons will be awarded for 1st, 2nd, and 3rd place in each class and 1 ribbon will be awarded Best Of Show! A $10.00 garden center gift card will be awarded to all 1st place finishes and a $30.00 garden center gift card will be awarded for Best of Show.
11:00-3:00 pm Open viewing to the public Oral voting by the public for People's Choice Award to conclude by 3:00 pm.

Helpful tips to prepare your

1. Entries should be in their prime of bloom. Spike forms (upright flowers) need to be ⅔ in bloom.
2. See through containers (can be clear or colored but must allow view of the stem). Match the container to the height of the flower. Container should be ⅔ the height of the flower stem. May prop stem with foil or clear wrap.
3. ALL entries need foliage except Pansies and Calla Lily. All plants need to be hardened (recut under running water) to avoid air bubbles in the stem.
4. Entries need to be in water. Only one stem per container (Calla Lily may have 2 stems), no foliage in water, no seed pods. No dirt, hair or fuzz.
5. Trim off old blooms and bug eaten or torn leaves. Cut leaves close to the stem.
6. Dahlias and Begonias (tubers) should only have 1 flower with leaves, no buds.
7. Lilies - Lilies need to be balanced. Do not cut the Anthers. Daylilies only - May be cut the morning of the show. It is a fast hardening flower.
8. Vines only may be propped with wire.
9. Use waterproof ink on entry form. Use a complete name if possible. Example: Blue Lobelia, not just Lobelia.
10. Avoid mechanical damage from travel by using padding around each container allowing space between each entry. You can use a small box turned upside down, carefully cut Xs large enough to tightly hold each container, put that box inside a bigger box and prevent it from sliding.
